

# McAfee Total Protection 2010

Ultimate, award-winning PC and online security for total peace of mind

With the daily emergence of new and more sophisticated Internet threats that could disrupt your digital life, you need more than a simple anti-virus program to protect yourself, your computer, and your family. You need feature-rich and simple-to-use McAfee® Total Protection 2010 software.

## New 2010 Product Features

**Active Protection**—Our revolutionary Active Protection technology provides the fastest protection against malicious threats to your PC. New and emerging threats are analyzed and blocked in milliseconds, so you don't have to wait for regular updates to arrive

**Quickscan**—Checks for threats in the areas of your computer that are most often attacked

**Faster performance**—Now with quicker startup, shutdown, and scan times, and it runs silently in the background without slowing down your PC, so you can play games, watch videos, and use applications uninterrupted

**Enterprise-class anti-spam**—Upgraded with powerful industry grade spam protection that helps keep your inbox free from unwanted, fraudulent, offensive, and phishing emails

**Power optimization**—Extends the battery lifetime of notebook PCs by deferring scheduled scans until the computer is plugged in and can be set up to shut down automatically after running a scan to help save energy

**Network monitoring**—Alerts you when intruders connect to your home network

**Age-appropriate searching**—Automatically sets the proper content filtering levels of popular search engines

**Parental controls support for Google Chrome**—Lets your children choose Google's latest web browser and still be protected

## New Product Highlights

**Anti-virus and anti-spyware**—Detects, blocks, and removes viruses, spyware, and adware

**Anti-phishing**—Alerts you to websites that may try to steal your identity

**Identity protection**—Helps you to shop, bank, and trade online safely

**Two-way firewall protection**—Confidently use the Internet 24/7 knowing hackers can't get access to your PCs

**Website safety ratings**—A powerful website guide and shield, McAfee SiteAdvisor® technology helps you to search safely and transact online by providing you with color-coded ratings to warn you about and prevent you from visiting risky websites that can compromise your identity and your PC
